To all future customers or potential clients:

Firstly, I would like to state how professional and helpful I found Kiran.

As a business owner myself I have been truly impressed, from start to finish, by the quality of service I have received. The advice and information I have been so lucky to receive has been truly exemplary.

As for the results I have had, as regards to the treatment, I am totally amazed. Although a little sceptical after the first couple of sessions the treatment was a total success.

I do not recommend businesses lightly and have never written a review prior to this, but I felt duty bound too on this occasion. I would strongly advise anyone who is considering this kind of treatment to look no further and place your hands in this more than competent company and owner.

Thank you so much for your help and I wish this goes some way in repaying your company with my utter gratitude.

Many thanks Kiran

*"I arrived at my first GentleMAX appointment a little scared and rather sceptical but the friendly staff at the Holborn Clinic quickly put me at ease but explaining the entire treatment stage by stage. The treatments are quick, relatively pain free and made even more easy by the professionalism of Kiran and her lovely team. I am a complete convert to laser hair removal and doubt I will ever need to go back to waxing again."*

**Jessica Hough, Marie Claire**

*"My experience with Kiran and the team at Accurate Lasers has been an absolute pleasure. Not only is the treatment fast and pain-free compared to others I have tried, but the staff are very welcoming and friendly. The salon is clean and in a great location and you are always treated in a very professional manner. The treatment itself saw immediate results and is the best long-term treatment for hair removal that I have tried. I always look forward to my next visit and can't recommend it more highly to people".*

**Angelica Hermon, Beauty Co-Ordinator, Grazia**

*"I have been regularly attending treatments with Accurate Lasers and Skin Aesthetics, provided by Kiran Singh, and couldn't be happier. The laser treatment I have received has improved my life no end, not only aesthetically owing to reduced hair growth but my skin is healthier too. I therefore feel better about myself resulting in a greater self-confidence.*

*I'd recommend laser treatment to anyone who is thinking about it, you couldn't wish for a better service than the one offered by Accurate Lasers and Skin Aesthetics, at competitive prices too".*

**Laura Walkerden, Sports Consultant**

*"I have been a client of Kiran Singh for over 2 years. I can confirm that she is a person of integrity, is extremely dedicated to her work and clients, and is honest and reliable. Kiran goes out of her way to make her clients feel comfortable and relaxed and treats them with respect and dignity at all times. I would recommend her to anyone considering laser treatment".*

**Natasha Lobo**

*"I have known Kiran for probably about two years now, in this time she has been not only my laser therapist but a friend. We first met at Laserclear clinics where she took over my treatment, and I was extremely happy with this. In all this time, I have known her to be caring, reliable, honest and kind hearted. She has always taken great pride in her work, and pays great attention to detail. I would not trust anyone else with my treatment".*

**Salima Dhalla**

*"I started coming to Accurate Lasers at the beginning of this year. I have now only had 2 out of my 6 treatments and already noticed a miraculous difference in my hair growth. I am having treatment on the majority of my body and in every area I have seen a massive improvement. As well as this Kiran is a true professional. She made me feel at ease and ensures I understand the procedure which makes me feel really comfortable. I would recommend her and the treatment to anyone who was considering it, it is the best thing I have done and the results and service are first class!"*

**Amy Bangle**

*"I have always been very happy to visit Accurate Lasers. Kiran is always very helpful and makes me feel at ease. She never rushes my treatment and always answers any questions or worries I might have. The surgery is very relaxing and in the heart of London so very handy for me to get there as I work in the City."*

**Laura Hatt**

*"Kiran and Accurate have been fantastic. She is always very considerate and respectful and makes sure you are completely happy with the results. And I am certainly happy with the results. The clinic is lovely and well situated - very easy to get to. I would recommend both Kiran and Accurate without hesitation!"*

*"After years of unsuccessful, expensive and painful hair removal efforts (waxing, shaving, epliating, IPL), I decided to research the effectiveness of laser technology for hair removal.*

*The Candela system came up again and again as the most advanced, safe and effective system. So in desperation and not without some trepidation, I went to see Kiran at the Holborn Clinic.*

*I immediately felt at ease, Kiran is very professional, but very warm and engaging. The science behind the treatment was fully explained to me, as well as a proper analysis of my skin type, and how the treatment would proceed. There was no hard sell, no miracle claims, and no hidden extras.*

*Once the treatment started, whilst the hair was coarse and strong it was slightly uncomfortable, but not as painful as waxing. As treatments progressed and the hair weakens, becomes more patchy and finer, the discomfort recedes.*

*The results have been life changing. Whilst not all the hair disappears completely - it takes weeks to grow back, it is finer, lighter and hardly noticeable. I no longer have to worry about wearing sleeveless tops or shorts, and synching it to waxing schedules. There are no ingrown hairs, black specs, and the skin is so much smoother.*

*I do have regular top ups, esp before a holiday, but nothing has been more effective for me*

**“It was a blessing to find Accurate Lasers, primarily because it is so conveniently located. I have had a very personalised consultation from Kiran Singh who is extremely patient and well acquainted with the laser machine, and gives you all the necessary information, advice and comfort that one needs when undertaking such a treatment. It truly has been as painless a treatment as one can imagine a laser treatment to be. Most importantly, you do not feel that you are being charged by the minute. The staff has always shown great hospitality and give you all the time you need. To date, I have had a very good experience”.**

**Nafies**

"My experience with Accurate Laser has been nothing short of excellent in all regards. From the results of the treatment, to the attention and friendliness of staff, I rate them very highly. I've had other sessions with facilities in California (where I recently moved from). Accurate is head and shoulders above the others, especially when it comes to the results of the treatment. I recommend them highly"

I would like to leave a review for 'accurate laser & skin aesthetics'  
The service at the clinic is excellent. The professionals are very friendly and welcoming, and the treatments are very effective. I would highly recommend.

**Rochelle 25/01/2017**

Great center, very serious and professional,  
They have very recent material and the center is clean.  
I recommend it !

I have been doing my laser treatment with friendly and lovely people. They really care about your results and help you as much as you need. I definitely trust this place and would recommend it to my friends. They are always ready for you! They serve you with the best customer service and make sure you are ok all the time. The laser which they use is the number one in the market with amazing results. Thanks to all the team,

Vanesa

I got a deal through you for a laser treatment with Accurate Laser. I am really happy with them as the service is excellent and the staff very friendly. Also they have one of the best machines on the market for permanent hairs removal. I would recommend Accurate Laser to everyone!

Kind regards

The service offered at Accurate Laser & Skin Aesthetics is of a high standard. The machine is very good and the pain free treatment is provided, which was my main concern when choosing the place to do laser hair removal and I am very happy with my choice.

The team at Accurate Laser is very helpful and friendly, and most importantly they treat their customers professionally.

My groupon did not cover all the areas I would like to be treated and Kiran was very kind to offer me a deal that I could afford. Not only I can see good results but girls also explain how the treatment is working and have an individual attention to each customer. Since the very first visit I felt very welcome there and would recommend it to everyone.

The staff was very welcoming, friendly and knowledgeable. Explained everything about the procedure and gave advice what to do before and after the treatment which was very helpful. Thank you and would recommend to others.

I just wanted to share my experience at the laser hair removal clinic that I booked through Groupon. The facilities were beautiful and impeccably presented. Booking online can be a bit of a gamble as you never know what to expect but as soon as I walked in the clinic I was made to feel comfortable and the staff there was very knowledgeable about the products, professional and most importantly, everything was spotless. The treatment itself was completely pain free and done in no time. So far the results have been better than I expected and I am looking forward to my next treatment there. I highly recommend this place to anyone as the pricing is competitive and the standards are high.

Best regards,

As a Cambridge academic, I am trained to be critical. However, at Accurate Laser, I have found nothing to quibble with. Their superb customer service and attention to detail begins from the moment you walk through the door, and continues through the treatment and booking your next appointment. The treatment itself is as pain-free as possible, with the therapist frequently checking in on how comfortable you are feeling. It's also highly effective: I felt the difference after just the second appointment, and further improvements with each subsequent treatment. I have no doubts in recommending Kiran and her highly professional team.

I highly recommend Accurate Laser. It's in a great city location, a lovely building, clean and newly decorated. It's a very relaxing place to go with soft music and candles. They have all the latest technology and you know you are in safe hands. If you have any questions Kiran is always happy to answer and makes you feel at ease. It is a pleasure to visit.
